

§ 330.206 Permits for plant pest movement associated with National Defense projects.

The Deputy Administrator will facilitate research associated with National Defense projects through issuance of permits for movement of plant pests for such research, upon receiving assurance satisfactory to him that adequate safeguards will surround utilization of the plant pests to prevent their dissemination.

§ 330.207 Permits for movement of organisms issued by other agencies.

Inspectors shall recognize permits for the movement of organisms issued under other acts by other Federal agencies. When such organisms are also plant pests, any further conditions of movement to carry out the purposes of the Plant Protection Act which have been prescribed in administrative instructions, or in correspondence concerning a single shipment, shall be complied with but no additional permit will be required under this part.

§ 330.208 Courtesy permits.

The Deputy Administrator may issue permits for the movement into or through the United States, or interstate, or organisms which are not subject to regulation under the Plant Protection Act or any other act, as a courtesy to facilitate movement when the movement might otherwise be impeded because of the similarity of the organisms with others regulated under the Plant Protection Act. He may likewise issue such permits on behalf of any agency requesting such action as a courtesy to facilitate movement for organisms not subject to regulation under the Plant Protection Act but subject to regulation under some other act.

§ 330.209 Permits for means of conveyance.

No permit shall be required for movement into or through the United States from any place outside thereof, or interstate, of a means of conveyance

unless the primary purpose of such movement of the means of conveyance is to move plant pests.

§ 330.210 Packing materials and containers for plant pest movement; host materials.

Plant pests moved into or through the United States, or interstate, must be free of soil, except when the Deputy Administrator approves in the permit the movement of soil with the plant pest. Subject to this exception, only approved packing materials are to be employed in the shipment of plant pests. Approved packing materials for the movement of plant pests under this part will be prescribed in administrative instructions or approved in specific cases by the Deputy Administrator. Such actions will be coordinated with and may supplement any requirements of the Post Office Department governing packing and packaging of any materials for movements covered by the postal laws and regulations. All containers shall be stoutly constructed so as to prevent breakage in transit and danger of plant pest dissemination and shall be labeled in accordance with § 330.211. The Deputy Administrator may allow the movement of host materials with plant pests under permits when they must necessarily accompany the pests, although such movement is otherwise barred under the Plant Protection Act.
